

David Burwell

Dear Seaspray Owners:

I and my family have been owners and have been active with Seaspray since my father was an original owner in the 1970's. I have continued that legacy of devotion to Seaspray through my years on the board and through my active committee participation for years.

I currently devote many hours each week supporting and fostering the affairs of Seaspray as a labor of love and devotion to Seaspray and all that Seaspray is to YOU, the owners who love it.

I have a BS degree from Miami University in Oxford, Ohio, and a Juris Doctor Degree from Capital University in Columbus, Ohio. I am licensed as an attorney in both Ohio and Florida. I most recently retired as an attorney with the Ohio Department of Taxation after eighteen years. Before that I practiced law in private general practice and in Elder Law for sixteen years. I now work for Okaloosa County Tourist Development. For seven years, I also was an executive professional with the Boy Scouts of America, plus having been a long-time volunteer leader with the Boy Scouts. I am an Eagle Scout.

Since moving to Fort Walton Beach four years ago, Elena and I have established our home at Seaspray in our condominium.

I have been on the Seaspray Board since 2020, and have been privileged to be president of the board since 2024. For several years before that through the present, I have actively served on various key committees.

During my tenure as president there have been no special assessments and we have lived within our budget. During my tenure on the board, our board has guided Seaspray from very serious financial situation about five years ago to a balanced budget. This has been accomplished in spite of huge insurance premium increases and new state mandated reserve increases.

Recently, Seaspray was victorious in a lawsuit concerning one owner's desire to violate Seaspray's Declaration, By-Laws and rules. The lawsuit was properly not discussed openly in order to protect the privacy of the owner involved. In this case, Seaspray successfully defended our governing documents and rules for the benefit of all Seaspray owners.

Contrary to inuendo and rumor, there have been no other lawsuits involving the Seaspray Condominium Association in decades.

The current Seaspray Board and Management has actively increased Seaspray's online and advertising presence with increasing positive rental results for all owners on the Seaspray Rental Program!

I encourage all owners to support and vote for the current members of the board to continue our positive progress on behalf of Seaspray:

Gillian Dezzutto, Nathan Scheunemann and David Burwell.

Sincerely,

David Burwell
